Adjuster:

1. Describe conditions observed during inspection. Attach supporting photo:
Provided answer

2. Report on any specific concerns raised by the insure, but not immediately
verifiable during adjuster's inspection:

Provided answer

Engineer:

Please inspect and report findings as agreed with the hiring WYO. Include
license and state seal validations. Specifically, we request the following:

- Identify cause and origin of any conditions or damages associated with the foundation or structural elements.
- Speak specifically to all conditions reported by the adjuster and/or the policyholder.
- If more than one peril contributed to the conditions observed, address in detail.
- Provide scientifically based conclusions with supporting documentation, such as but not limited to sketches, weather data, surge data, soils data, construction documents, photos, measurements or other information relevant to the conclusions drawn.
